

PROFILE

I am an AI and web developer with a master in Computer Science. My passion lies at the intersection of AI and web services, which has been the driving force behind my education, work, and continuous development. With over 7 years of programming experience and a strong background in communications, I have played pivotal roles in various projects. My expertise encompasses Python, SQL, JavaScript, data science, and machine learning. Currently, I am active on the Upwork platform, where I consistently receive positive feedback from clients, showcasing my commitment to delivering high-quality work and client satisfaction.
